The Hidden Reality: Parallel Universes and the Deep Laws of the Cosmos

By Brian Greene

Vintage. Paperback. Book Condition: New. Paperback. 464 pages. Dimensions: 7.9in. x 5.2in. x 1.0in. The bestselling author of *The Elegant Universe* and *The Fabric of the Cosmos* tackles perhaps the most mind-bending question in modern physics and cosmology: Is our universe the only universe? There was a time when universe meant all there is. Everything. Yet, a number of theories are converging on the possibility that our universe may be but one among many parallel universes populating a vast multiverse. Here, Brian Greene, one of our foremost physicists and science writers, takes us on a breathtaking journey to a multiverse comprising an endless series of big bangs, a multiverse with duplicates of every one of us, a multiverse populated by vast sheets of spacetime, a multiverse in which all we consider real are holographic illusions, and even a multiverse made purely of math--and reveals the reality hidden within each. Using his trademark wit and precision, Greene presents a thrilling survey of cutting-edge physics and confronts the inevitable question: How can fundamental science progress if great swaths of reality lie beyond our reach? *The Hidden Reality* is a remarkable adventure through a world more vast and strange than anything we could have imagined....

Reviews

It is great and fantastic. It can be written in easy phrases and never hard to understand. You will not really feel monotony at any time of your respective time (that's what catalogues are for concerning if you request me).

-- **Michel Halvorson**

This book is definitely not easy to get going on reading through but extremely exciting to see. I am quite late in starting reading this one, but better than never. I am pleased to explain how here is the finest book I actually have read inside my individual daily life and may be the best book for ever.
